

How to Install Adobe Apps from Creative Cloud App

Search for and launch the Self Service app

Log in with Levi credentials

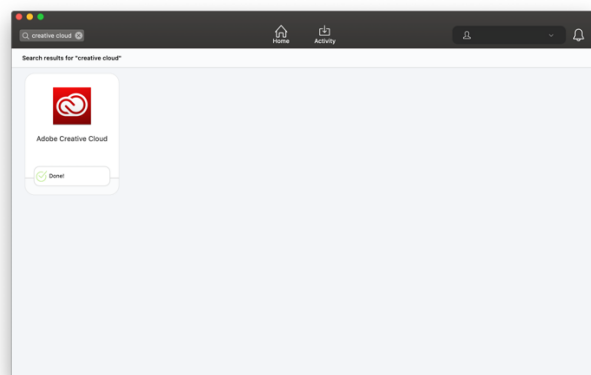

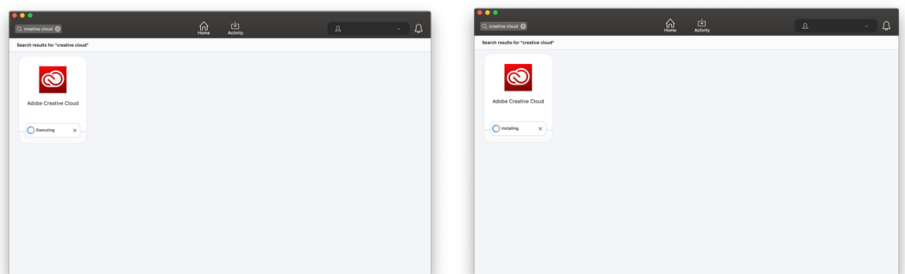

Search for “Creative Cloud” and click “Install”

Wait while it executes, installs and says Done!

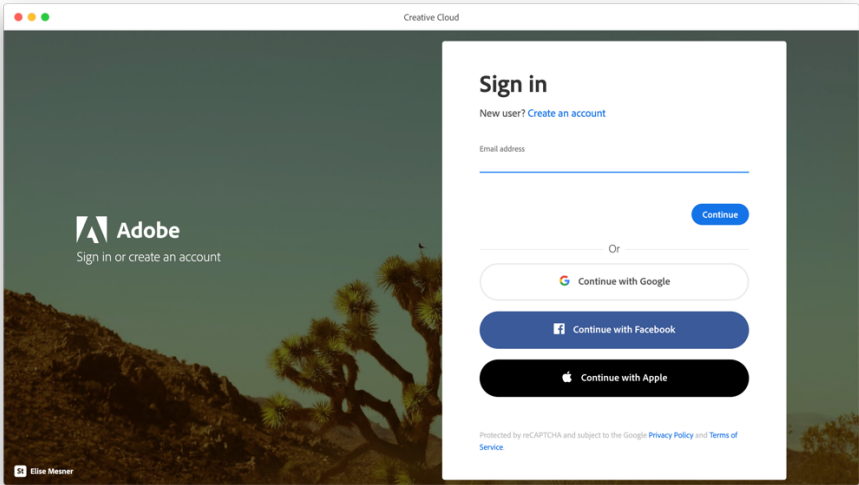

Once completed exit Self Service

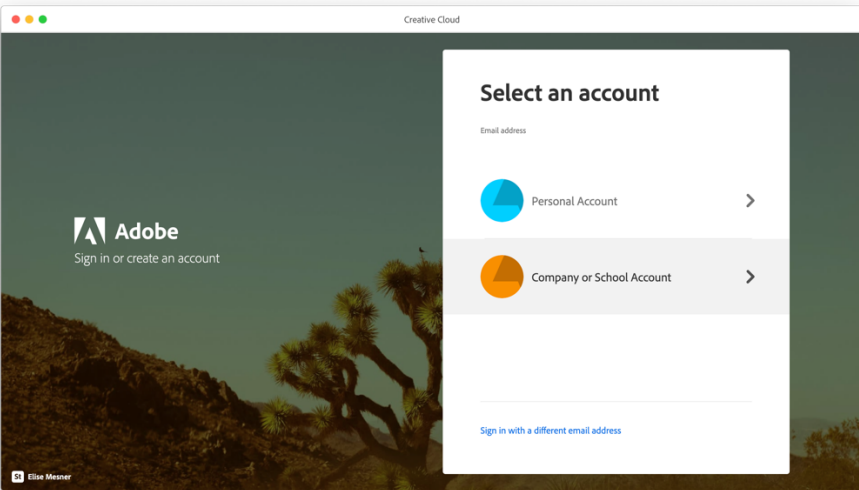

Browse for and open the newly installed “Creative Cloud” app on your Mac

Type in your **Levi email address** into the email field and click “Continue”

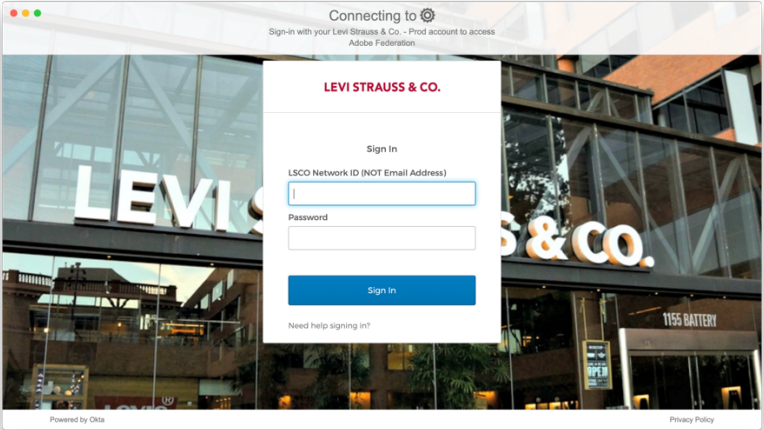

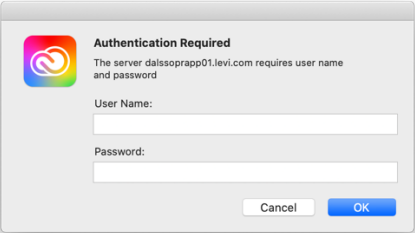

Select “Company or School Account”

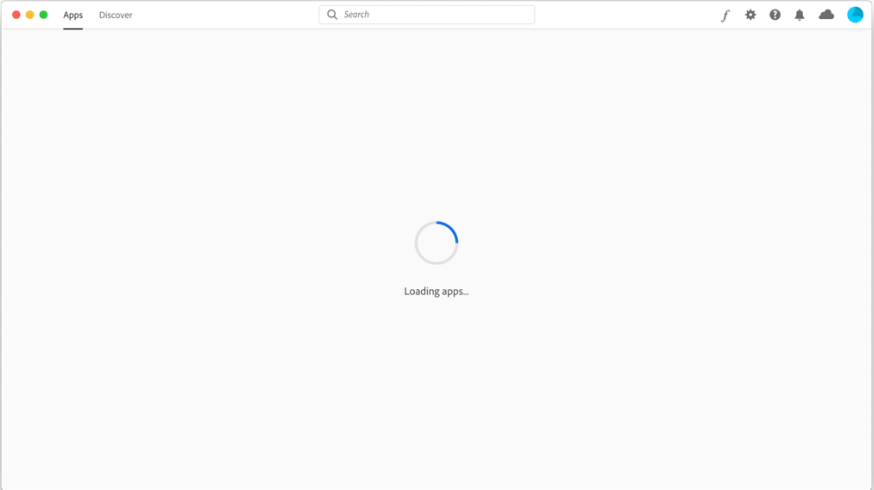

Sign in with your Levi username and password and click “OK”

Then sign in with your Levi credentials again and click “Sign In”

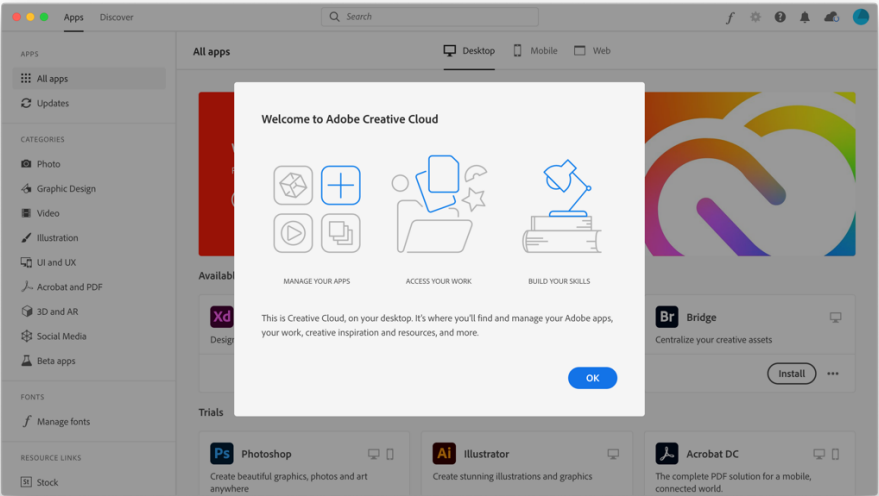

The Creative Cloud app will prepare and load

Loading is complete

Click “OK”

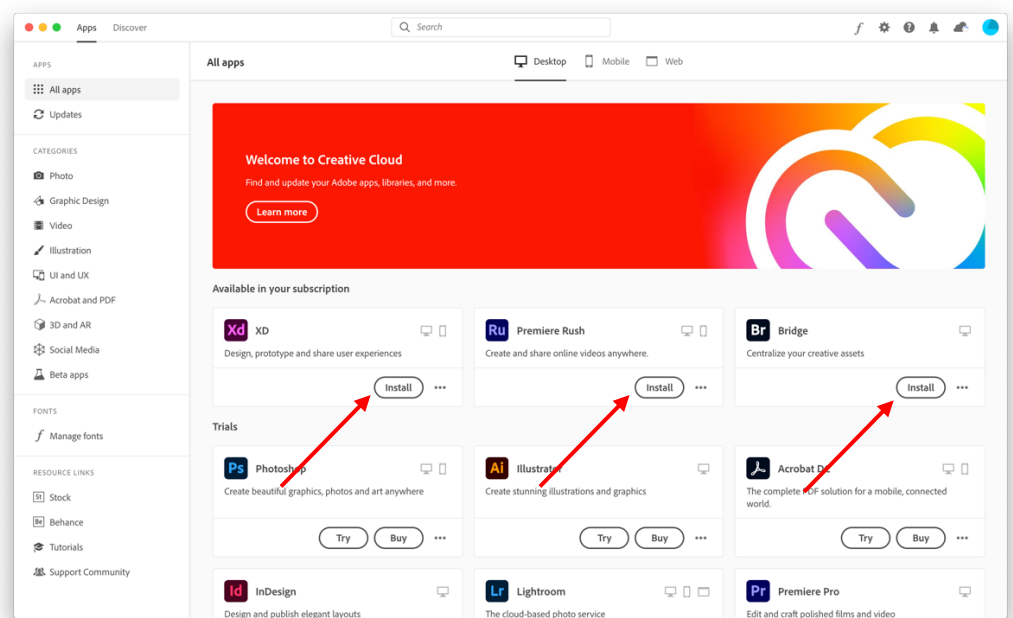

You are now WELCOME to use the Creative Cloud app to install any apps available in your subscription

(Actual apps available to install may vary based on user subscription)
