and then click "**Set up**"

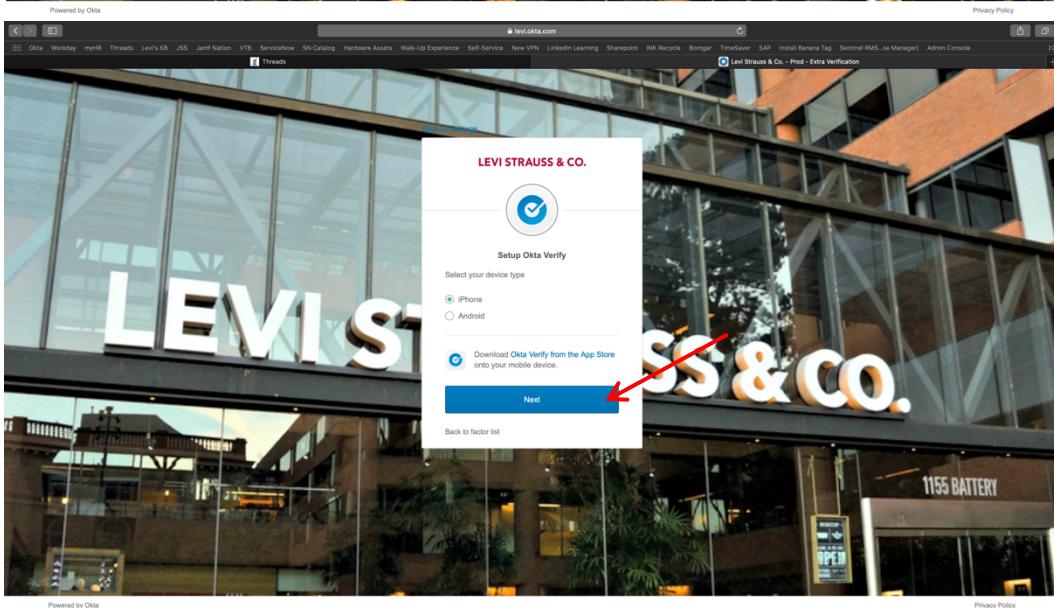

Click "Configure factor"

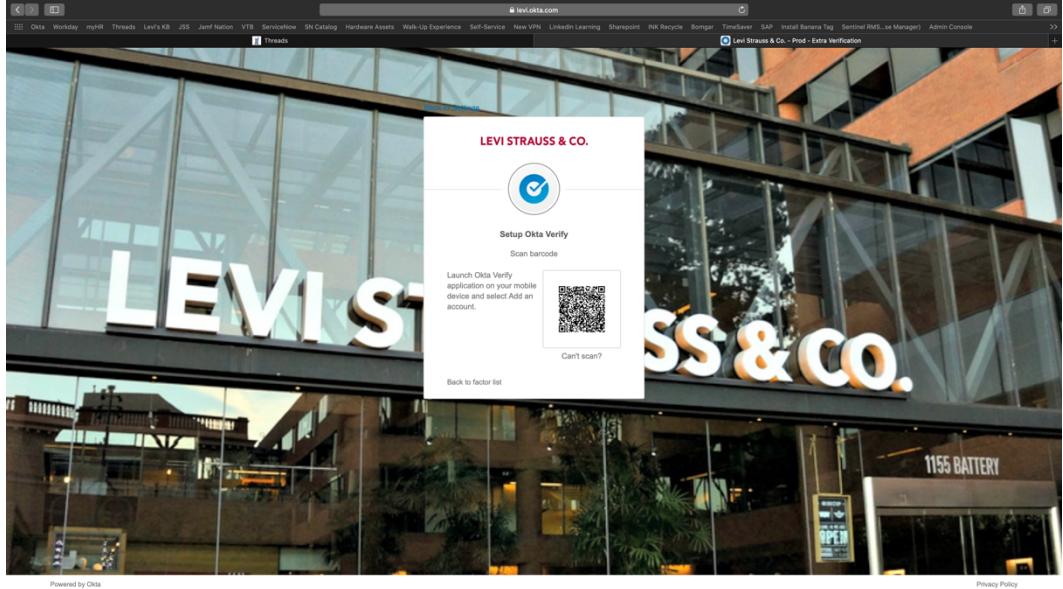

Make a selection from
the following choices
"iPhone" or "Android"

Click "Next"

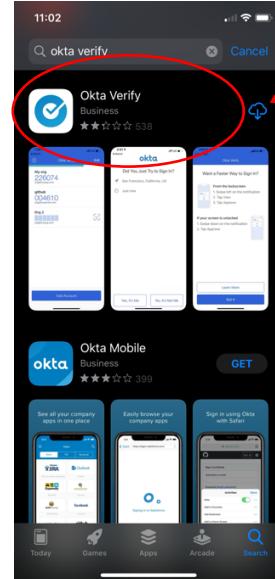

Keep this page open
while you prepare for
the next steps

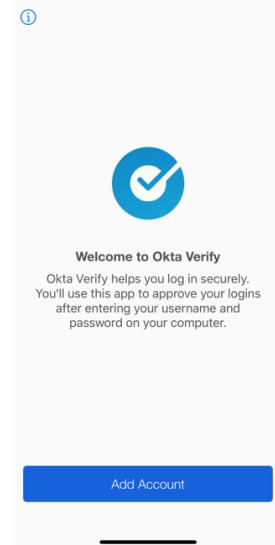

Retrieve your mobile
device

Launch the [App Store](#)
and search for the
"Okta Verify" app

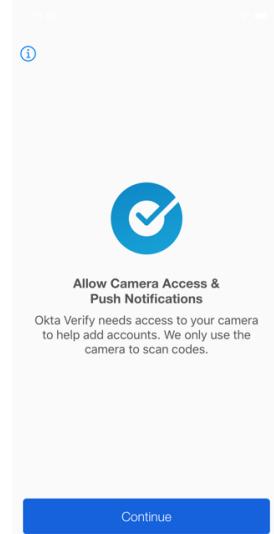

Tap on "Get" or "⊕" to
download

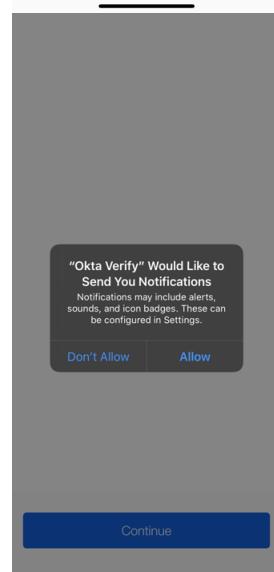

Tap "**Add Account**"

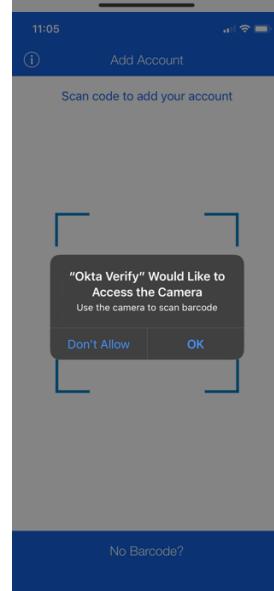

Tap “**Continue**”

Tap “**Allow**”

Tap “**OK**”

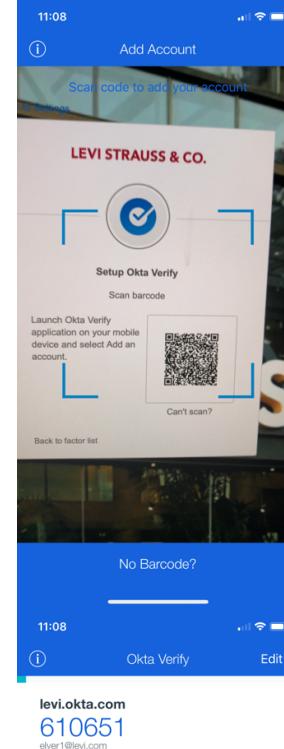

Hold your phone up and position rear camera to face computer screen

As if you were taking a photo - capture the QR code on your computer screen

This is what it should look like once captured correctly

The 6-digit number will expire after 30 sec. and continue to change as it is dynamic

**Do not select "Add Account" again

Verify that the Set up is complete - it should look like this

You have now completed the Okta Verify Set up and it is ready for your next use!
